REAL TIME RISK SOLUTIONS

All In The Palm Of Your Hand

Projects

Distributed workforces have **customizable** experiences with only their assigned projects and documents

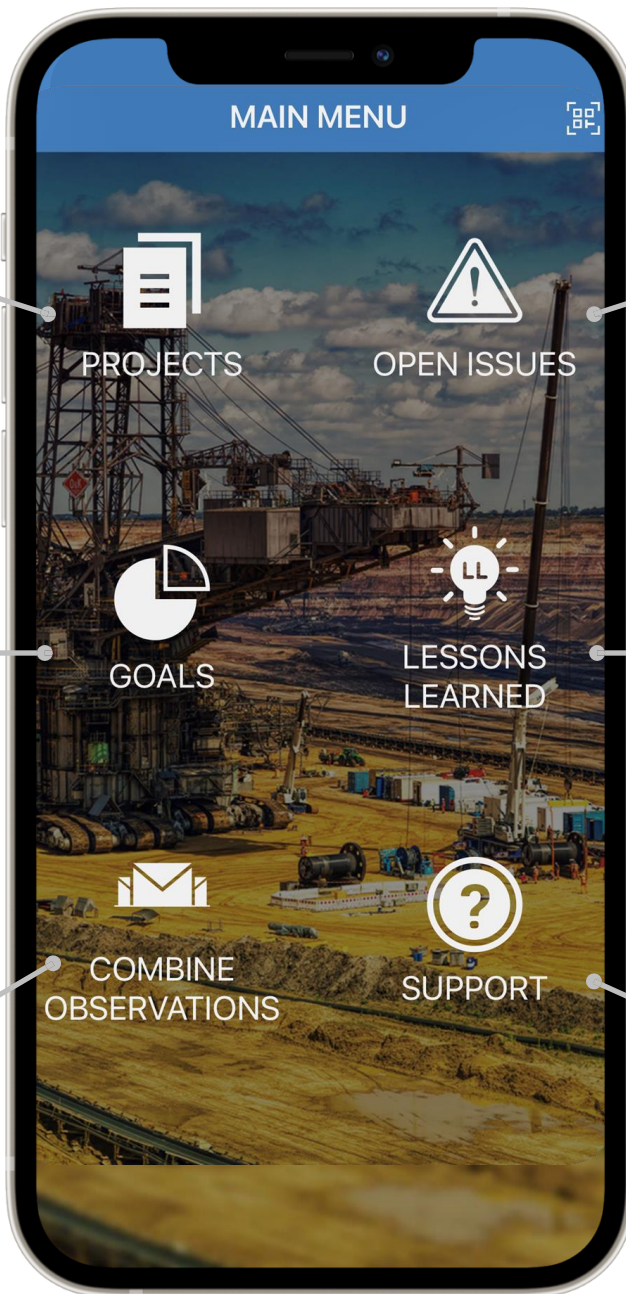

Goals

Track individual performance against **goals**

Combine Observations

Combine multiple site visits into a **single report**, which can be emailed to each responsible party

Open Issues

Quickly monitor, track, and **close open issues** using **push notifications**

Lesson Learned

Innovative **suggestion box** for all employees

Support

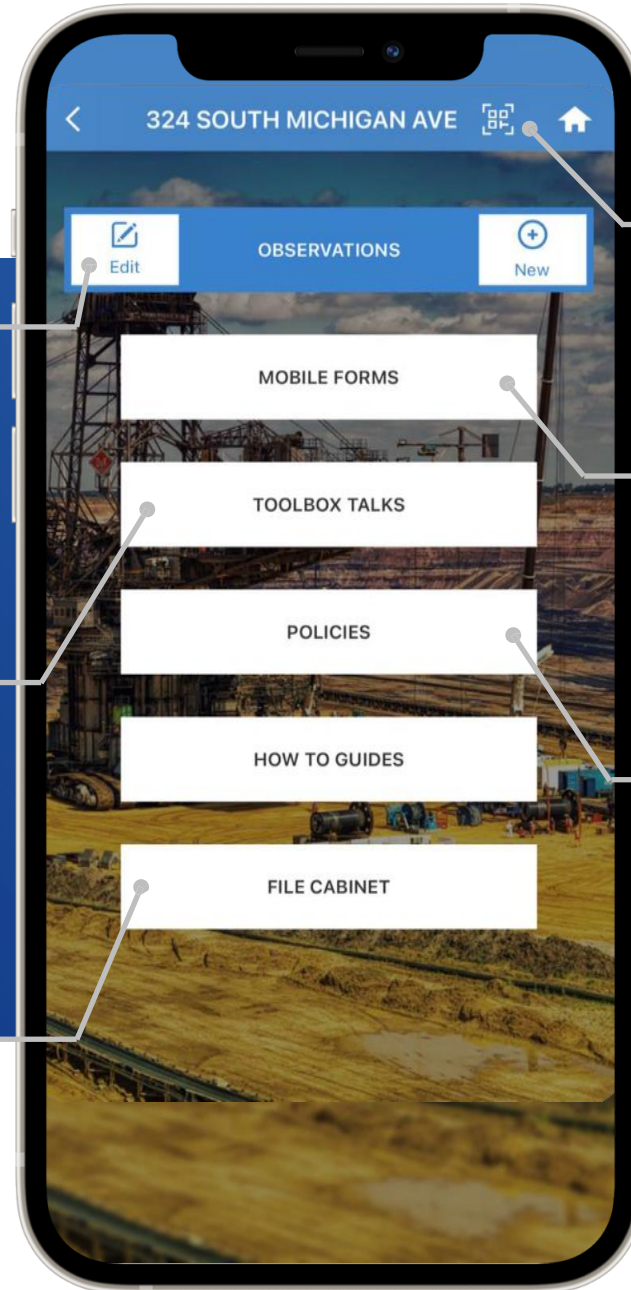

Toll-free number and email **support**

Library with over **10,000**
best practices

500+ Toolbox Talks in library

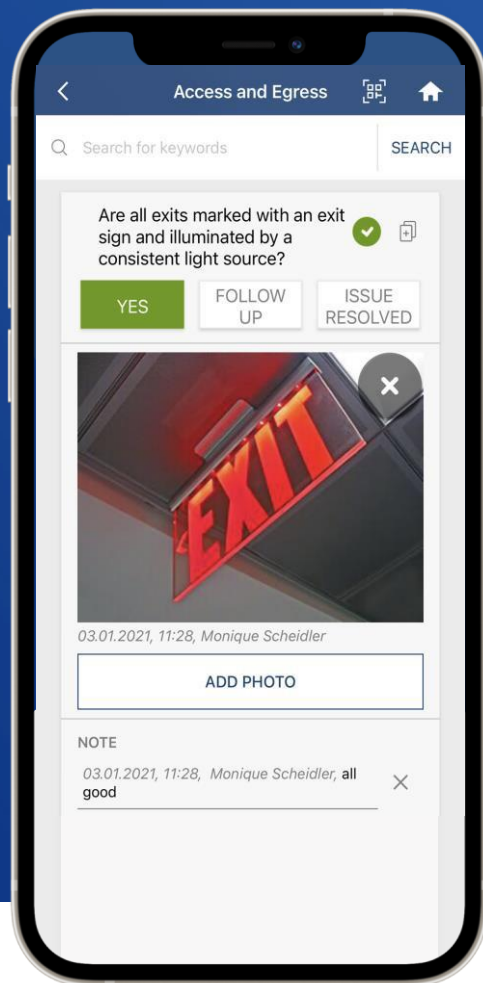

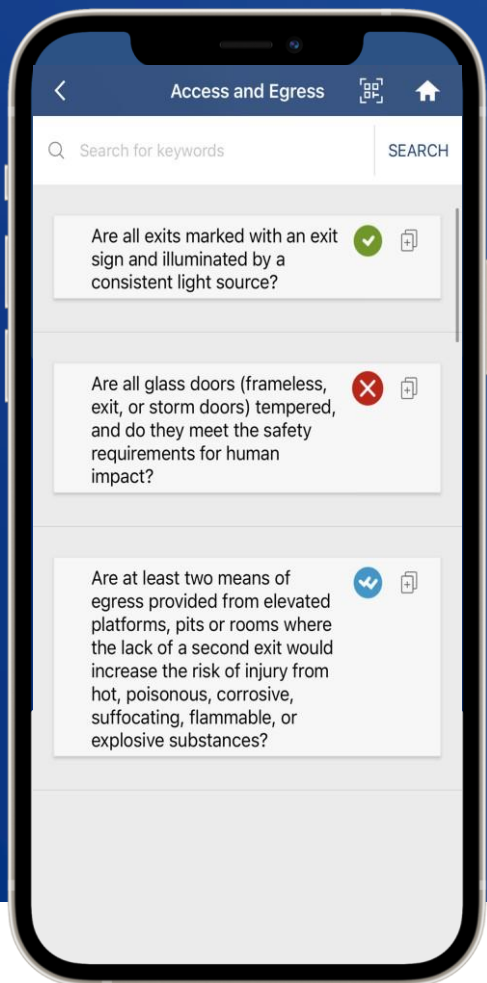

Manage files from the website,
view them on any device

Instant access to all QR codes

Convert paper forms into
mobile forms

160 best practice policies
to help build your safety
program

Observations

Create observations by leveraging a library of best practices or upload your own questions

All observations are GPS, time, and date stamped

Voice dictation captures information

Effortlessly document all issues with photos, notes, party observed, and severity

Assign issues between internal and external parties using push notifications

Sample Observation Templates

1

Asbestos Handling

2

Compressed Air Environment

3

Confined Spaces

4

Field Audits

5

Zika Virus

+ 275 more

TRY IT NOW

Mobile Forms

Over **150** mobile form templates to choose from, each one customizable by project

Post QR code boards throughout the job site where subs fill out your forms for free

Eliminate paper-based forms

Convert your paper forms into real-time dashboard reporting

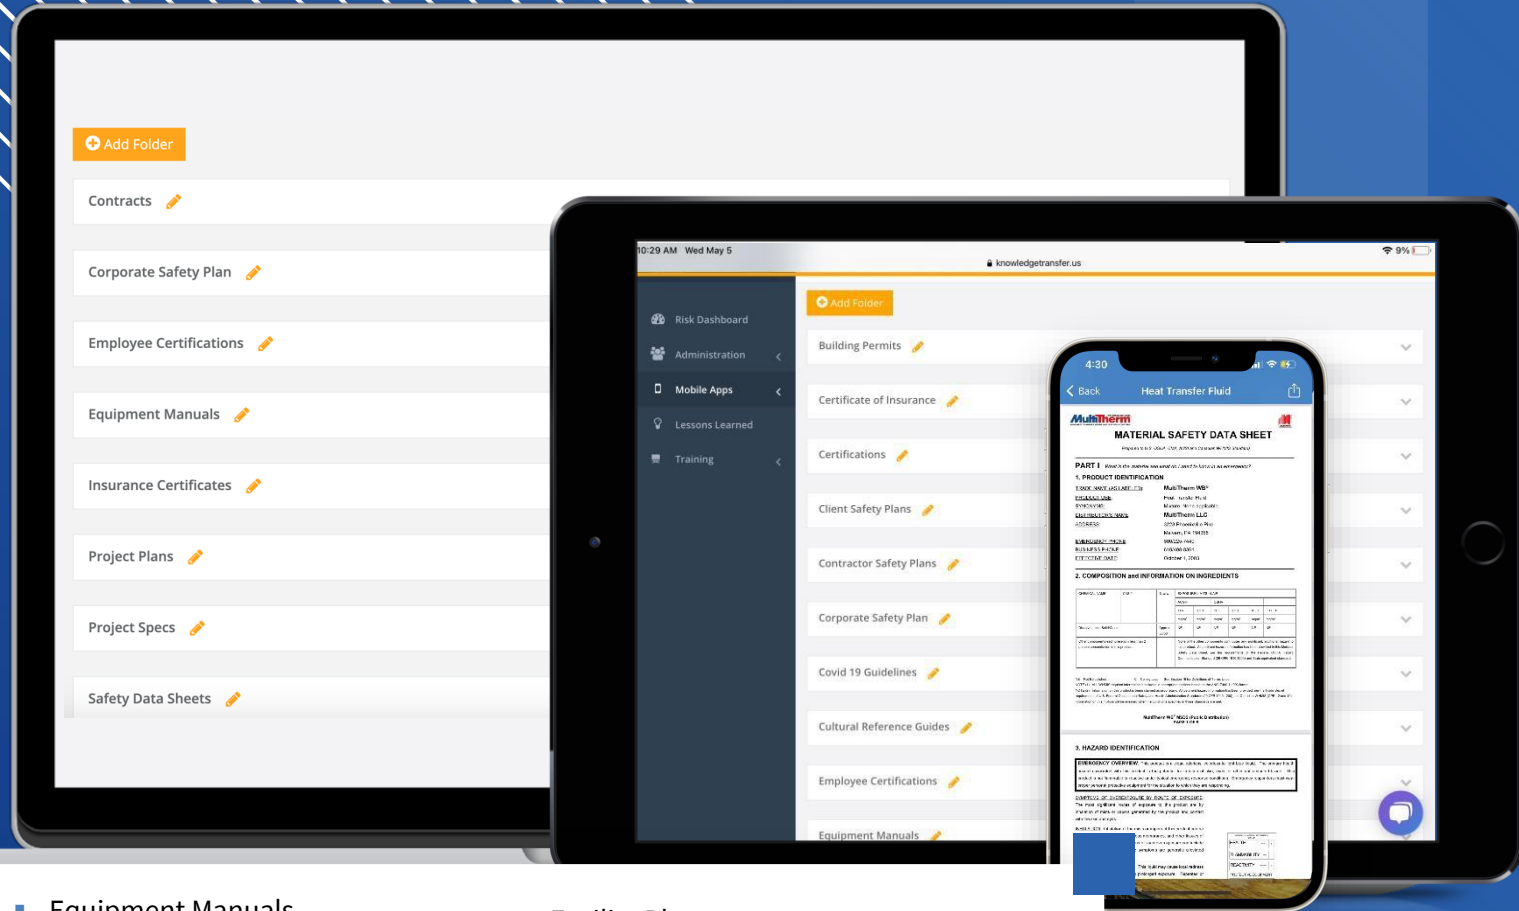

Filling out forms on-the-go has never been so easy

- Incident Report
- Utility Hit Report
- Job Hazard Analysis
- Near Miss
- Hot Work Permit
- Accident Reporting
- Daily Trench Inspection Form
