

## Life underwriting just got more efficient

Get instant access to multiple types of public records, in one simple report.

LexisNexis® Electronic Inspection Report provides life carriers with instant access to the public records information needed to evaluate risks presented by life insurance applicants and help independently confirm information disclosed on applications.

### LexisNexis Electronic Inspection Report is a powerful tool for life insurance underwriters, offering:

#### Fast access

Instead of waiting weeks for traditional inspection reports, you can now gain virtually instant access to public records information through LexisNexis Electronic Inspection Report. You can benefit by receiving immediate access to data that will help speed up the underwriting process and reduce risk with a clearer picture of the proposed insured.

#### Independent check of personal data

LexisNexis Electronic Inspection Report enables you to independently check information the proposed insured submitted on the application. It also provides a more holistic view of the proposed insured's public record footprint, providing information such as criminal records history, properties affiliated with, bankruptcies, liens and judgments.

#### Cost savings

LexisNexis Electronic Inspection Report provides multiple types of public records underwriting data in one streamlined report, eliminating the need to order the data components separately, saving both time and money. You can also take advantage of the report being available through our Insurance Solutions web delivery service. This service gives you streamlined access to a single point of delivery which requires less dependence on IT support and resources, while enhancing efficiency and improving the speed of doing business.
