

Risk

See, understand & mitigate your risk

Real-time risk-management platform

The problem

Day-to-day lapses in risk-management standards
exposes your business to preventable losses.

EXAMPLE SCENARIO

Employee is
conducting a
hot works task
on site

```
graph LR; A[Employee is conducting a hot works task on site] --- B[Are fire extinguishers present?]; A --- C[Is the area clear of flammable material?]; A --- D[Are the fire doors secure?]; A --- E[Is the employee qualified for this task?];
```

Are fire extinguishers
present?

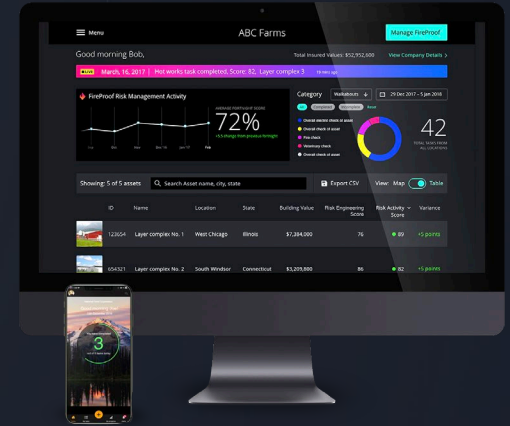

Is the area clear of
flammable material?

Are the fire doors
secure?

Is the employee
qualified for this task?

The solution: xRisk

xRisk is a risk-management tool that enables you to see, understand and mitigate risks and issues in real time, reducing the likelihood of major incidents.

xRisk LIVE

Mobile app

Empower your workforce to monitor your business risk in real time.
